BANKERS MEET AT THE WOMAN'S CLUB HOUSE TOMORROW

State Treasurer Ed Farley and Secretary of State Bruner Coming.

Leading Financiers of the First District.

ALL BANKS CLOSE AT NOON.

The second annual meeting of Group 1, Kentucky Bankers' association, will be held tomorrow in Paducah. Bankers from all over the first congressional district will meet, and it is expected that about 50 visiting bankers will be guests in the city for the meeting. A splendid program with social features has been arranged.

The bankers will meet tomorrow morning at 10 o'clock at the Woman's club building. After the completion of the program the bankers will adjourn to the Palmer House, where lunch will be served at 1 o'clock. At 2 o'clock the bankers will take a boat ride on the Ohio and Tennessee rivers on the steamer C. W. Robertson.

Among the distinguished guests present for the meeting will be State Treasurer Ed Farley and Secretary of State Ben L. Bruner. Both will deliver addresses. The bankers will begin to arrive tonight, but most of them will arrive tomorrow morning on the early trains. The executive committee is composed of Louis Hicke, chairman; S. W. Van Culin, secretary; S. H. Deen, of Murray, and J. R. Wylie, of Princeton.

All the banks will close tomorrow at noon.

The program is:

Call to Order—Chairman.

Invocation—The Rev. H. T. Smith.

Welcome Address—Hon. Charles R. Wheeler.

Response—J. H. Wylie, of Princeton, of the Farmers' National Bank.

Appointment of committees.

"Banks and Bankers"—Hon. C. C. Brimbleton.

"State Bank Examination"—Hon. Ben L. Bruner, secretary of state.

"Group System"—Mr. Arch R. Lewis, secretary Kentucky Bankers' association.

Address—Hon. E. Farley, state treasurer.

Report of committees.

Election of officers.

Adjournment.

ONLY TWO ROOMS TO BE FITTED UP

Because of the lack of school funds, the county school board decided to complete only two of the school rooms, which will be sufficient to hold the first session of the county high school this year. The board will need all of the money this year for the maintenance of the common schools, and to pay the contractor for the work already completed on the high school building. It is estimated that the two rooms can be completed so that sessions of the school may be held for \$500.

The roof on the building has been placed on, but it will require considerable work yet before all of the interior of the building can be completed. Next year it is thought possible that the remainder of the building can be completed.

The contracts for building the coal to the school buildings were not let, but it was decided to leave the question to the trustee of each sub-district. By this method it is hoped to secure the hauling of coal more cheaply and satisfactorily.

The new division boards will be organized this week. Superintendent L. W. Pezzer organized the board in the first educational division this afternoon.

Captain Wright Returns.

Captain A. W. Wright, commander of the steamer Clyde, and Mrs. Wright, returned last night on the steamer Dick Fowler from Chicago, where they attended the Knights Templar convocation. Captain Wright will go out in command of the Clyde tomorrow evening, relieving Wharfmaster Frank Brown, who has been in charge of the boat for two weeks during Captain Wright's absence.

A Successful Editor.

Mr. A. A. Cross, editor of the Benton Tribune-Democrat, was in the city today. Mr. Cross is making a success of his newspaper enterprise and has recently installed his plant in new quarters.

Bloodhounds Are in Pursuit of Man Who Attacked Mother of Capt. Fred McCandless Sunday

Was Hiding in Hall and When She Went to Door He Seized and Tried to Choke Her Into Silence—Have Clew.

Smithland, Ky., Aug. 16.—(Special.)—Bloodhounds from Harrisonburg, Ill., are on the trail of a man, who attempted to assault Mrs. Lucy McCandless Sunday night at her home 10 miles north of here, and made his escape. Two officers in charge of four dogs are trailing through Livingston county, accompanied by sheriffs and deputies, who expect to apprehend a well known man suspected of the act. His name is withheld.

Mrs. McCandless, who is mother of Capt. Fred McCandless, of the steamer Ohio, was at home Sunday night with her two daughters, Maude Ella and Marie McCandless, four miles below Hicksville on the Kentucky side. Attracted by a noise she arose to make sure that the front door screen was fastened, when a man, who had entered the house and was concealed in the hallway in the darkness seized her. He attempted to choke off her cries, but failed. Cries of the girls frightened him away and dogs were placed on the scent Monday morning. The scent was followed a short distance and after being lost was taken up again. An arrest is expected by tonight.

Barley Tobacco Sale.

Lexington, Ky., Aug. 16 (Special.)—The barley society placed the 1910 crop on sale this afternoon. There is a big crowd of buyers present. They expect an average of twenty cents.

Elks' State Reunion.

Frankfort, Ky., Aug. 16 (Special.)—The Elks' state reunion opened at Frankfort today.

This is a Solid Man.

Marion, Ill., Aug. 16.—John Burton, an amateur wrestler of Alton, Ill., early this morning choked two men to death with his bare hands, following a quarrel. Burton had come here to engage in a contest. He is under arrest, but claims that his two victims attempted to rob him.

Gus Wentz and Lewis Veltrecht, were the two men whom Burton killed. The latter was a powerful man, 6 feet 3 inches in height and weighing 225 pounds.

Gaynor Getting Well

Holokou, Aug. 16.—Mayor Gaynor is still improving. He passed a good night and a bulletin was issued today declaring his respiration is practically normal.

GUS THOMPSON RESIGNS FROM THE POLICE BOARD

Fire and Police Commissioner A. G. Thompson has resigned his office, and Mayor Smith will appoint his successor some time before the September meeting. Commissioner Thompson expects to bid on city contracts, and he considered that his business interests are too valuable to be surrendered for the honor of holding public office.

Illinois Central's Probe Going Deep

Chicago, Ill., Aug. 16.—New revelations of graft in the Illinois Central opening new lines of investigation, are made known.

It is claimed that approximately \$500,000 was fraudulently secured from the railroad company through the installation of a new telephone and electric block signal system by the simple method of padding the figures on the cost of installation. It is also charged that the company lost large sums through a conspiracy whereby coal billed to the Illinois Central from Iowa was seized by conspirators and sold to wholesale dealers.

Criminal prosecutions against the former employees involved in the car repair conspiracy and the outsiders who benefited will not be started until the latter part of the week. A

RICHARDSON IS NOT TO BE FOUND

LAKETON POSTMASTER MISSING WHEN MARSHAL ARRIVES WITH WARRANT.

Wanted by the United States government on a charge of embezzlement, J. M. Richardson, postmaster at Laketon, Carlisle county, is a fugitive from justice, and Deputy United States Marshal Elwood Neel made a waterhaul yesterday.

Armed with a warrant for Richardson's arrest, Marshal Neel went to Laketon yesterday to find that the former postmaster was gone and another man was in charge of the office. Mr. Neel traced Richardson as far as Union City, Tenn., where he lost the trail and returned to Paducah last night.

Richardson, who conducted a grocery at Laketon, in connection with the postoffice, is alleged to be short \$173.28, principally in money orders and general receipts. It is said that in paying debts he issued money orders without making a deposit at his office. He is said to have a wife somewhere in the south.

Earl of Amherst Dead.

London, Aug. 16.—William Archer Amherst, third earl of Amherst, died today. He was born in 1836.

Class in M. W. A.

Another initiation of a class into the Modern Woodmen of America of Paducah will take place at the Three Links building, Fifth street and Kentucky avenue, Friday night. The class numbers seven young men and the exercises will be under the direction of Mr. H. Mulkins, district deputy for the lodge. He has been here several weeks organizing classes and will remain until December. A large class was initiated last Friday night.

TOWBOAT FIREMAN DROWNED IN OHIO

RIVER MEN REPORT THAT MEMBER OF TURNER'S CREW LOST HIS LIFE.

Joe Keary, colored, a fireman on the towboat Charles Turner, of Paducah, is reported to have drowned in the Ohio river near Turner's landing last night by falling overboard. No particulars were learned and the news of the drowning could not be confirmed, although it was rumored around in river circles.

The crew of the steamer Dick Fowler, returning from Cairo last night, brought news to the effect that Turner was hard aground at Turner's landing, which is about 18 miles above Cairo. She left here yesterday afternoon. The Ohio is gradually receding and bulletins have been posted giving warning of a low stage of the river.

FIFTH DISTRICT REPUBLICANS TO TAKE AGGRESSIVE

Point With Pride and Listen to Senator Bradley on Party Achievements

Nominate Judge McGee and Robert Bingham.

FOR CONGRESS AND FOR JUDGE.

Interest in the Fifth district congressional race is aroused in the purchase by the nomination of J. Wheeler McGee by the Republicans. Thirty-five years ago he was principal of the old Paducah University, where most of the men now in middle life finished their education in lieu of a high school. Judge McGee is remembered as a gentleman of the old school. He is highly respected and loved by his former pupils, and regardless of party, the graduates of the university plus their hopes to Judge McGee.

Louisville, Ky., Aug. 16. (Special.)—Republicans of the Fifth congressional district in convention here last night nominated former Police Judge Wheeler McGee for congress, and nominated Robert Bingham for court of appeals. Mr. Bingham has been mayor, county judge and county attorney, and was colonel of the First regiment, K. N. G.

The platform adopted endorses the administrations of President Taft and Governor A. E. Willson and the other state officials and the record of Senator W. O. Bradley. It refers in terms of pleasure to the accomplishments of the last congress, including the tariff bill with its provisions for a commission, the maximum schedules, and the corporation publicity feature, the postal savings bank bill, the increased power of the interstate commerce commission in regulating railroad rates, the commerce court, the reciprocity agreement with Canada, the employers' liability law, free trade with the Philippines, and the readjustment of the tobacco tax for the benefit of Kentucky tobacco growers.

Bradley's Speech.

In his first speech dealing with the political situation in Kentucky since his return from Washington, United States Senator William O. Bradley addressed the delegates and visitors at the Masonic Temple this afternoon at the convention of the Republicans of the fifth district, in which he endorsed Robert W. Bingham, nominee for judge of the court of appeals from the fifth appellate district; and Wheeler McGee, nominee for congress from the fifth congressional district.

The speech of Senator Bradley follows:

"The Republican party of the nation has reason to be proud of the present situation. The deficit of \$58,000,000 faced by President Taft when he was inaugurated, has melted away, and we now have \$20,000,000 surplus. The tariff bill has brought prosperity and is rapidly bringing more. There has been a large increase in the number of people employed, wages were never so good; the farmers have never been so prosperous; we have never had so much money per capita in circulation. Our exports and imports are most gratifying and the song of prosperity is heard alone by the usual discordant notes of Democratic croakers and a handful of insurgent Republicans, who arrogate to themselves all the wisdom and honesty of the great party to which they claim allegiance.

"I do not question the honesty of the insurgents; they are all my friends and possessed of splendid attributes, but I do question their judgment and the air of superiority they assume.

"My amiable and able friend, Senator Cummins, lately quoted from Lincoln his memorable remark that a government part slave and part free could not exist, and wound up by saying that the existence of the Republican party depended upon making it all 'progressive.' I object to the use of the word 'progressive' as employed by these gentlemen in describing their attitude. The Republican party has always been and is now 'progressive.' It is the pioneer party which has blazed the way from the time of its inception. It blazed the way for amendments to the constitution that have proven a landmark of protection to the American people. It blazed the way for a bond and currency system; it perfected it to carry the war to a successful conclusion, and made this the richest and most prosperous country on the globe; it blazed the way for a national banking system. It blazed

Tennessee Republicans Meet in Enthusiastic Convention Today to Select Next Governor of State

Independent Democrats Attend Meeting at Sam Jones' Tabernacle and Cheer Alf Taylor's Speech.

Nashville, Tenn., Aug. 16. (Special.)—Five thousand Republicans and Independent Democrats, cheering like mad, packed the Sam Jones tabernacle here at noon, when the Republican state convention was called to order by Temporary Chairman Alf Taylor.

Alf made a speech that set the crowd wild with enthusiasm, the Democrats exceeding the Republicans in the lunacy of their outburst.

The scene of the convention leaves no doubt as to the purpose of the Independent Democrats to support the Republican state ticket this fall. The Independent leaders were consulted yesterday and last night by the Republican leaders in regard to the candidate for governor, and the man nominated today will bear the stamp of approval of those who backed the winning judicial ticket at the recent election.

B. W. Hooper, of Knoxville, seems to have the call on the nomination, though nothing definite has been given out by the leaders. The utmost harmony prevails, the whole question of selecting a gubernatorial candidate being left by the convention in the hands of the leaders to pick a winner.

California Primary.

San Francisco, Aug. 16.—Insurance and standpoint are the issues in the statewide primary here today. Hiram Johnson, the insurgent candidate for governor, has the backing of the Roosevelt-Lincoln league. Charles S. Curry, Nathaniel Kilgory, Alden Anderson and Philip Stanton oppose Johnson. The congressional fights on the same issue are heated.

Ballinger on Conservation.

Kalamath Falls, Ore., Aug. 16.—"We must be frugal and economical. We must use common sense in handling the resources we have. That is all there is to conservation," said Secretary Ballinger today. He refused to discuss the political program said to be planned by President Taft.

Griscoll Falls Down.

New York, Aug. 16.—For the second time since his return from Africa Col. Roosevelt has been defeated by a party organization in his own state. This time came when James S. Sherman was selected chairman of the Republican state convention instead of Roosevelt. Lloyd Griscoll's motion to make the former president chairman was defeated 20 to 15. Griscoll attempted to stampede the convention with Roosevelt's name without consulting the wishes of the convention.

Sleeping Man Killed by Train.

New York, Aug. 15.—Stephen Golasky, a laborer, went to sleep on the platform of the Roslyn station of the Long Island railroad Tuesday evening. His legs extended over one of the rails, and an eastbound Oyster Bay train struck him. The man died in the Nassau hospital, Mineola, yesterday.

ENTRIES FOR THOUSAND DOLLAR STAKE RACE

Entries for the two \$1,000 stake races for the fall fair closed at midnight Monday and they will be announced Thursday. Secretary Rodney Davis of the Paducah Fair association has received a large number, although he is sworn to secrecy as to the amount. By Thursday all of the entries from the farthest points will reach here, but all dated past August 15 will be rejected. The stake races will be held the second and third day of the fair and will attract the best pacers and trotters from the Grand Circuit.

COLUMBUS COPS FIRED OFF FORCE

MEN, WHO REFUSED TO BOARD STREET CARS, LOST THEIR POSITIONS.

Columbus, O., Aug. 16.—The thirty-three patrolmen, who joined the revolt last week in connection with the street car strike, were discharged today. The state troops are on duty today.

A CORRECTION.

CAPT. HAWKINS

STEAMBOAT MAN AND CIVIL WAR VETERAN DIES.

Had Spent Life Time on the Ohio River—Lived Here Thirty-five Years.

After a short illness of pneumonia fever, Capt. Thomas Hawkins, 67 years old, a well known steamboat pilot and survivor of the Civil war, died at 7:30 o'clock last night at his home, 630 South Fourth street. He had been ill only two weeks and up until that time was able to be about and enjoying good health. He lost consciousness Sunday and remained in a comatose condition until death claimed him. A brave soldier and popular riverman has gone to his reward.

Captain Hawkins was born at Tell City, Ind., where he remained until the age of 19 years. He went to Shawneetown, Ill., where he filled the offices of jailer and deputy sheriff for a number of years. While there he began his steamboat career, being in charge of the Shawneetown ferry. He came to Paducah 35 years ago and was actively engaged in steamboating since that time. His last trip was on the steamer Dick Fowler a few days prior to his last illness. He was not identified with any church, but was a true and kind man and liked by everyone.

Surviving Captain Hawkins are his wife, Mrs. Mary D. Hawkins, and two daughters, Miss May Hawkins, of Paducah, and Mrs. Ollie Frazer, of Cairo. He leaves relatives in Michigan.

Brewer Infant Dies.

The 11-days-old daughter of Mr. and Mrs. Guy Brewer died at 8:15 o'clock last night at the family home near Concord school house on the Hinkleville road after a short illness of fever. The funeral was held at 4 o'clock this afternoon and burial took place in the New Liberty church graveyard near Rossington.

COLLIDES WITH GERMAN SHIP IN FOG—PARIS TO LONDON FLIGHT

Gibraltar, Aug. 16.—Thirty-two passengers and seven members of the crew of the Spanish steamship, Martos, were drowned today, when the ship collided with the German vessel, Elma, in a fog.

Wreck on Iron Mountain.

Popular Bluff, Mo., Aug. 16.—The conductor and mail clerk on the Iron Mountain fast mail were injured when the engine and two cars left the track near Annapolis today.

LEWIS MAKES DENIAL OF MINERS' CHARGES

Indianapolis, Aug. 16.—President Lewis, of the miners, defied himself in a speech before the miners' convention this morning, saying he made no statements that the miners should pay the shot-firers; but recommended that the expense should be divided. He stated that he was working for the welfare of the miners and that he cater to no faction among them. It is probable that the special committee will not report before tomorrow.

HAYNES BROUGHT TO HOSPITAL FOR X-RAY RICTURE

Fails to Reveal Location of Bullet in His Chest—Three Wounds.

Sneed Has Not Yet Been Arrested.

STORY OF SHOOTING AFFAIR.

With a bullet in his body that the X-ray has failed to reveal, Crit Haynes is in a critical condition at Riverside hospital, where he was brought last night from his home in Ballard county. He was shot late Saturday night at a picnic at Russell's grove by Luther Sneed. The bullet entered his left side under the arm, and ranged downward. Haynes was brought to the hospital last night on the steamer Dick Fowler.

Sneed has not been arrested. The trouble arose out of circumstances connected with a quarrel between Sneed and the Higginson boys, of that section. A small debt and gossip were at the bottom of the original feud, and it is said one of the Higginson boys fired a shotgun at Sneed last Tuesday, but the shot went wild and struck Sneed's horse.

Saturday night about 10 o'clock Sneed and a young woman were riding slowly home from a meeting, when Haynes and Will Kelly passed them on foot. They drove on past the two pedestrians and then returned to the girl's home, Sneed pausing to ask the men to return to a moonlight picnic, offering to haul them home, when it was over. The men agreed and at the house Kelly and two others went to get a drink, whereupon Haynes said Sneed remarked, "Crit, you lied about me."

"I reckon not," replied Haynes. "Yes, you did," insisted Sneed, and, drawing his revolver, he fired three times, so close to Haynes that the powder burned his coat sleeve. Two bullets went through his left arm, and the third entered his left side under the heart.

He walked a mile before he collapsed. Sneed, according to Kelly, drew his revolver and threatened him, but he caught it, and the hammer pinched his thumb. He talked Sneed out of shooting, and Sneed drove away.

Sneed went on to Needmore, where he is a merchant, about four miles away, and secured a shotgun and drove back, threatening, so these witnesses say, to clean up "Dry Ridge."

He was found asleep about 3 o'clock Sunday morning in his buggy in front of George Johnson's home by Al Berry. Since then he has not been seen. The witnesses say the officers did not respond to the summons to arrest him, when Berry found him asleep.

Mr. Berry, his brother and Dr. Usher accompanied Haynes to Riverside hospital.

Allege Living Baby Was Buried.

Jackson, Tenn., Aug. 16.—Ed Tramsou, a young farmer residing 10 miles from Jackson, in this county, was arrested, together with his wife, Tramsou Harris, and two negroes, who live on the Tramsou farm, on the charge of burying alive the three-week-old baby of Tramsou's sister. According to reports, a married sister of Tramsou who, it is said, had been married and separated from her husband for several years, gave birth to a child did nicely until a few days ago, when it is alleged to have mysteriously disappeared.

Batteries Today

The batteries at League park today will be: For Paducah, Floyd and Hunyan; for Harrisonburg, Hastings and Jordan. The Indians leave on a short trip tomorrow.

Judge Wells Returns Home.

Hon. A. J. G. Wells returned to his home in Murray this morning after a short trip to the city on business. His little daughter, who is ill of typhoid fever, is not quite out of danger, and he will not leave Murray for several days. The election of a superintendent of the Lakeland asylum will be held by the state board of control as soon as Mr. Wells can leave Murray.

All that was noteworthy in yester-
day's game happened in the first
inning when Paducah made two
runs. Not a man crossed the rub-
ber after that round and as a result
the Indians marched off the field
victorious to the tune of 2 to 0 with
the second scalp of Harrisburg danc-
ing to their belts. It was a grand game
in more than one respect, and it de-
served a larger attendance.

There were several features of the
game. Probably the most brilliant
of the day was the steal home by
Chief Angermeyer right in the first
inning, and the good baserunning of
Vondore who made the second score
a minute later on a wild throw. But
not to be forgotten was the shining
work of Jesse Gwin in the box. The
tail twirler pitched gilt edged ball,
and was as cold as an ice block.
Time after time he got in tight
holes, but his splendid head work
enabled him to pull out with the
record unblemished. For 15
innings not a runner has crossed the
home pan on the Indians.

Another pretty play was the per-
fect throw from Lockhart to Ander-
son in the eighth inning that killed
Dowell. Dowell smacked out one
doubt and in the eighth banged out
another. The ball went to right,
and Lockhart got it in a hurry. He
made a true throw to Anderson on
second, who rested before tagging
Dowell.

During the game Paducah secured
only two hits off Farthing, who is
known as the all around man. Chief
Angermeyer has the credit of the two
safeties, and the remainder of the
Indians suffered a slump in their
batting averages. Gwin was touched
up for seven hits, but he kept them
scattered and with his hard work let
the runners die on the sacks.

The game started with Chief An-
germeyer and he banged out a single
to left field. Vondore was safe at
first and Angermeyer reached second when
Farthing fumbled a grounder in-
tended to be a sacrifice. Anderson
was at the bat, when Farthing made
a wild throw to first to catch Vona-
dore. Both runners advanced a sack
on the throw. Chief Angermeyer
gave the signal to Anderson for the
squeeze play, but the little shortstop
failed to hit the sphere. Angermeyer
started with the ball and was half
way between home and third. He
started to return, but Jordan
snapped the ball to Hastings, who
returned it to the catcher, but the
chief passed over the pan safely.
Vondore went to third, and Jordan
made a quick throw to Hastings. As

KEEP THE BOWELS ACTIVE.

No one can keep well with a lot of
impurities blocked up in the system.
The blood must have fresh material
from which to draw its food—not a
poisonous mass of waste matter.

See that the bowels are kept ac-
tive and you need never feel ill or
be liable to disease. The pleasant
way—the gentle yet firm way—to
keep sluggish bowels in good order
is to take Dr. Edwards' Little Sugar
coated Olive Tablets. Dr. Edwards
put fifteen years of experience into
these tablets. They cure torpid
liver, bad breath, pimples and purge
the blood of all impurities. The
Olive Oil in them soothes and heals
wonderfully. All druggists sell them

the vest pocket.

Try them—today. The Olive Ta-
blet Co., Portsmouth, Ohio.

a result the throw was high, and
Vondore counted with the second
score. The remaining Indians were
easy, and during the remainder of
the game not a man scored.

Of all the holes that Gwin pulled
out of the second was about the
meanest. Dowell was first up and
slammed out a two bager. Tintlen
followed with a single. With two
men on the sacks and nobody out
Gwin settled down. Miller flew out
to Angermeyer. Jordan and Farth-
ing were fooled completely, and
struck out. In the third after
Turner had gone out Payne to Vona-
dore. Dewitt was safe when Overton
spilled a fly. Hastings singled, and
was followed by Gust who repeated
the trick. The stations were full, and
it looked bad. Dewitt was roundly
cheered. Tintlen popped one to An-
derson and the danger was averted.
Gwin did not have another danger-
ous inning, although in the sixth
with better hitting by Harrisburg
the game might have been lost.
Dowell flew out to Overton, and
Tintlen was given a pass. Miller
singled and stole second. Jordan
struck out, and Farthing knocked a
high one to Overton, and the two
runners died on the sacks. After
that the Indians never threatened to
lose the game.

Hopkinsville Takes Another.

Hopkinsville, Ky., Aug. 16.—Hop-
kinsville won from Clarksville by
the big score of 11 to 1. Weatherford
for Clarksville was knocked down
by the slash, while Bailey was hit hard.
Demarree twirled a splendid gnm,
and held the Tennesseans down to
three hits. Zeke Taylor, formerly
with Paducah, is captain of the Hop-
kinsville team.

WILL STOP BACKACHE

A man who can do this seldom
complains of backache. His kidneys
are in pretty good condition. Those
who can not carry the children "pick-
n-back," or when even less strenu-
ous exercise causes sharp pains over
the kidneys, should try a few doses of
the new Backol Globes treatment.
It is said to be re-
markably effective and a splendid
tonic for out of order kidneys and
bladder. Druggists say it is fine for too
frequent urination, dizzy spells, ner-
vousness and rheumatism. It is giving
such universal satisfaction that it is
sold under a positive guarantee by
Gilbert's Drug Store.

way to Paducah to join the team.
With the addition of the new ma-
terial and the return of the hospital
brigade, the team is expected to re-
gain the games lost on the recent
slide toward the bottom. Higgin-
back, of Sheldon, Ind., has been
assigned to cover third base, and will
join the tribe in a few days. Engel,
who was secured from St. Louis,
sprained his ankle and has played
but two games. Arthur Long, the
fleet footed little outfielder, a
former favorite in Paducah, is en-
route from Shelbyville, and will add
strength to the team.

Frank Overton's injured finger is
healing rapidly, and he will be able
to officiate next week, but his ab-
sence is not felt so keenly as Block
is putting up a splendid game. Cox
will return to the game for the
series with Hopkinsville, and Lon
Vondore will travel back to second
base. With the addition of Higgin-
back, Wood Payne will be used
regularly as a twirler.

Wednesday the team will leave
for a series of six games.

Giants Divide With Pirates.

New York, Aug. 16.—New York
and Pittsburgh split the double-head-
ed, the score of each game being 2
to 1. The first contest, which was
won by the visitors, went eleven in-
nings and was a pitchers' battle be-
tween Lelfield and Mathewson.

The umpiring of Rigler and Em-
sle displaced the enthusiasts, and af-
ter the first game, a few bottles and
glasses were thrown at them.

Cubs and Dodgers Split.

Brooklyn, Aug. 16.—Brooklyn and
Chicago split two one-sided games.
The visitors shut out the locals 10 to
0 in the first by batting both Barger
and Miller hard. Brooklyn turned
the tables in the second by 9 to 1.
Riche was knocked out of the box
and Pfeffer was pounded for six hits
in the eighth. Bell allowed only
three hits.

Boston Takes Two.

Boston, Aug. 16.—Playing error-
less ball and batting hard, Boston
won two games, the first 9 to 6 and
the second 8 to 1. The locals over-
came a five run lead in the first
game.

Naps Grasp Two.

Cleveland, Aug. 16.—Philadelphia
took both games from Cleveland, 5
to 2 and 7 to 3. Cleveland had Phil-
adelphia beaten in the first game un-
til the eighth inning, when Young's
three-base wild throw allowed the
visitors to tie the score. Both Bemis
and Turner retired because of injur-
ies in this game. In the second De-
mott received his first trial, being hit
hard but reckless base running held
down the score.

AUGUST SHOOTING STARS

According to the government astronomers, the August "shooting star" season will open tonight, and the display this year promises to eclipse any of the performances of Haley's comet whose visit a few months ago was disappointing to many observers, and failed to come up to advance press notices.

There is always more or less frequency of these periods of "shooting stars" during August, and the meteor which fell near Council Bluffs, Ia., two days ago may have been the opening number of the program. The night of August 14 (St. Lawrence Day) is the traditional time for these heavenly bodies to be most numerous, but they will be very plain during the week and should average from thirty to forty per hour.

The moon will be in the first quarter, and thus not bright enough to observe the path of light made by the "stars." Prof. Hall, of the United States naval observatory, says: "It is a mistake to call these tiny masses 'stars,' much more to call them 'shooting stars.' They are in all probability nothing but tiny particles of some comet which have been left suspended in space after that visitor passed on its way, and are picked up by the atmosphere of the earth when it reaches the orbit of the comet."

In regard to a state news article published in The Evening Sun July 5, in which it was stated that Mrs. Annie Carr took her own life because she was starving to death, we have received a correction from Mr. Richard Carr, which we are pleased to publish today.

LEXINGTON AND THE COMMISSION.

Lexington opponents of the commission plan are wasting breath describing the commission plan, generally, as un-democratic. They should base their arguments on specific faults of the Kentucky law. It is un-democratic, and advocates of the commission government in Lexington are going far afield to drag the success of the Des Moines plan into the Kentucky situation.

The commission government as provided for by the last legislature is not in any way responsible or subservient to popular will. It takes away the representation by wards and the divided authority of the mayor and general council, and places all power in the hands of a \$15,000 commission, without a practicable recall, initiative or referendum. These three are essential to make the commission government democratic. Moreover, no second class city in Kentucky has any \$3,000 men lying around idle, who can devote their whole time to the affairs of the city. The big salaries will only serve as temptations to small fry politicians to secure the jobs and emoluments.

Commissioners paid a nominal salary for supervising the affairs of the city, assisted by high salaried experts in the departments under them, would insure the city first class service under direction of the able active men, experienced in big business enterprises, to whom the honor of the office and the desire for good public service would be the only incentives to stand for the nomination.

A good commission government is a fine thing but a bad commission government is worse than the present system could be at its worst.

FIFTH DISTRICT

(Continued From Page One.)

the way for the internal revenue system which, with the tariff, has produced ample revenue to carry on the government, protect labor, afford reasonable profit to investors and give the farmers an advantage that they never possessed before. It blazed the way for the irrigation of the deserts of the west. It blazed the way for new methods and greater necessity for the improvement of rivers and harbors. It blazed the way to victory in the Spanish war and the settlement of trouble in China; it blazed the way to acquire Porto Rico, the Hawaiian and the Philippine Islands; it blazed the way for the construction of the Panama Canal. It blazed the way for the anti-trust law; the creation of an interstate commerce commission, the postal savings bank, the conservation of national resources, the commerce court—in short it has blazed the way for every road that leads to enlightenment and success. It has accomplished all it ever undertook.

The Tariff.
"There was never a tariff bill that pleased everybody. To pass a tariff bill it is necessary that every action of the country should be recognized. One section may oppose what another desires, but every bill must be the result of mutual concession. The average duty of the present bill is even less than that of the Wilson bill. The tariff was raised on articles imported into this country annually of the value of \$240,000,000, while it was reduced on articles imported annually of the value of \$5,000,000,000.

"The tariff was reduced on barbed wire, horse and mule shoes, and increased on alcoholic compounds and toilet preparations. It was decreased on oil, cloth, leather and gloves for ordinary use and increased on high-class automobiles and gloves that fit up to the top of the shoulders. It was reduced on machinery of all kinds and increased on champagne and other wines, and costly liquors. It was reduced on paints, oaths and chinaware for common use, oil-cloth and linoleum, and increased on ostrich feathers and hat ornaments. But I will not enter further into details.

"The Republican party has revised the tariff downward, exercising great care not to surrender the principle of protection upon articles produced in this country in order to prevent our home products from being displaced by articles made by cheap labor abroad. There are some things in the bill against which I voted when the whole bill was presented there were so many excellent provisions in it that I could not think for a moment of depriving the American people of their benefit. The McKinley bill relieved the farmer and his vendee for the payment of the 6 cents tax on leaf tobacco, but it was repealed by the Wilson bill.

Four times since bills passed the house, the object of which was to restore this portion of the McKinley law, but when they reached the senate they died in the finance committee. Such a provision was contained in the Payne bill, but when it reached the senate was stricken out by the finance committee and was not reported to the senate. I introduced an amendment containing the substance of the house bill, adding some provisions to enable the government to trace tobacco sold, which, after discussion and consultation, culminated in the passage of the present law, which is a part and parcel of the tariff bill. And yet, when the Democrats voted against the tariff bill they voted against the tobacco bill. Had they defeated the tariff bill the farmers of Kentucky would have been deprived of the benefits of the tobacco bill. In my judgment the passage of the tobacco bill alone would have justified every congressman from Kentucky in voting for the present tariff bill. When we reflect that more than 4,000 articles were dealt with in the tariff bill, and that our innumerable critics in the senate have found less than half a dozen which about equals their number, of which to complain, it certainly shows they are but little concerned in the thousands of items which are of benefit to the people.

"The more this bill is understood the more completely the veil of sophistry and misrepresentation which envelops it is torn away, the more thoroughly it will be approved.

Cost of Living.
"The continual cry that the tariff is responsible for the high prices of food is but blatant demagoguery. Several resolutions were

New Map of the City.
 An enlarged map of the city drawn on a scale of 100 feet to the inch has been begun by Assistant City Engineer King and Moss, who have completed one section of it. The map will be placed on the wall of the city engineer's office and will prove invaluable for reference purposes. It will be three times larger than the old maps and all sections of the city can be seen with ease several feet distant. The map will be about 10 feet in height and 20 feet wide.

Behind Her Schedule.
 Capt. Scott's Antarctic Expedition Sighted Off Cape Point. Cape Town, Aug. 16.—The ship Terra Nova, bearing the antarctic expedition with which Capt. Robert F. Scott hopes to reach the south pole, was sighted today off Cape Point. The Terra Nova sailed from Maderia June 27 and was about fourteen days behind her scheduled time.

LIND WILL NOT RUN.
 Minnesota Democratic Governorial Nominate Obsolete. St. Paul, Minn., Aug. 16.—In a letter received by F. A. Day, chairman of the Democratic state central committee, John A. Lind, of Minneapolis, who is in Seattle, and who was named for governor by the Democratic state convention in July, Mr. Lind says:

"I cling to my original decision in refusing to be the Democratic candidate for governor, though I am without a full knowledge of the situation."
 Democratic leaders in Minnesota are looking around for a suitable man to be named by the committee to fill the vacancy on the ticket.

TRY POISON AMERICAN GIRL.
 Food Offered By Mother-in-Law Fatal to Dog. St. Nazaire, France, Aug. 16.—The criminal authorities are investigating an alleged mysterious attempt to poison Mme. Claude Bertin, the American daughter-in-law of Pierre Bertin, the well known dramatic authority and play producer.
 According to gossip of discharged servants, which first attracted police attention to the case, there was considerable feuding between Mme. Bertin the elder and her American daughter-in-law, who is the daughter of a Chicago doctor, culminating, according to the servant, in attempts against the life of the younger woman.
 Circumstances were detailed, including mysterious white powders seen upon dishes served by the elder Mme. Bertin to her daughter-in-law, which were fatal to a dog when fed out of the dish.

MOVING LOSS OF MRS. E. BRANDSTETTER.

Hurled Monday Afternoon at Smithland Cemetery—Many Relatives Here.

Sunday morning, August 14, about 8 o'clock, Mrs. E. Brandstetter, of Smithland, died of general debility at the ripe old age of 88 years. She was well known and liked by a host of Smithland and Paducah people, as she had been a resident of

the old city of Smithland for 61 years except four years spent at Metropolis, Ill., where she was also well known and is still remembered.

She was a devout member of the Catholic church and Father Connolly, of Paducah, made a special trip to see her before her death, to administer holy communion and extreme unction, thus preparing her for death and the grave, according to her belief.

She is survived by her two sons, Frank and Isadore, of the well known firm of Brandstetter Bros., of Smithland, and by two daughters, Mrs. B. S. Cheek, wife of a well known merchant and banker of Pulaski, Tenn., and Mrs. Mary A. Leo, wife of G. W. Leo, the secretary of Paducah Marine association, and herself a prominent worker of the Woodmen Circle, No. 2, and the Rebecca lodge, No. 17. Mrs. Brandstetter also leaves several grandchildren and great-grandchildren. Among these latter are Mr. L. A. Carmichael, the well known undertaker, of Smithland, and the Misses Clara and Julia Lee, of North Sixth street.

Mrs. Brandstetter retained her faculties and consciousness until a few moments before her death and finally passed away like a child going to sleep, surrounded by her children and loved ones.

She and her husband emigrated from Germany and settled in Smithland in 1849, thus putting her among the oldest citizens of the famous old county of Livingston. She was laid to rest in the old cemetery on the hill at 5 p. m. Monday. Her body was followed by a large concourse of sorrowing relatives and friends and her grave was literally hidden by floral gifts of the most beautiful designs coming from her relatives and friends from all over the country.

RECONSIDERED BROADWAY PLANS

TO RELIEVE TRACTION COMPANY OF DISADVANTAGE.

Because It Will Move Car Barns, the Sidewalk Work Will Be Deferred.

NEW LABORATORY PROPOSED.

Councilman Duvall came to the rescue last night before the council adjourned and by changing his negative vote which helped loose the ordinance for improved sidewalks on Broadway between Eleventh street and Fifteenth street, the action was reconsidered and the ordinance was given first and second passages with its amendment, striking out the improvement in front of the Paducah Traction company's car barns at Fourteenth street and Broadway.

At the last meeting of the council the ordinance was passed including the walk in front of the car barns. It also included the walks in front of the Illinois Central railroad hospital, which are already improved. The traction company, which is contemplating moving the car sheds to another locality, asked that it be excluded for that part of the improvement, which would result in a double expense in case the sheds were moved.

Councilman Hannan introduced an amendment to this effect and the council reconsidered its minutes of the previous meeting. Councilman Barnett was the only member to vote against the reconsideration of the minutes and the amendment carried. When the time came to give first passage to the amended ordinance, Councilmen Barnett, Budde, Duvall and Mayer voted "nay," which marked a death blow to the entire Broadway improvement. Those opposing the ordinance did so because General Manager Sewall, of the traction company, did not state definitely when the sheds were to be removed. This, however, was out of place, as Councilman Campbell, who said the council could at any time bring in an ordinance, calling for the improvement in front of the barns. The matter was dropped until the board completed transacting the rest of the business and Councilman Duvall then said he saw the matter in a new light and thought the board could reconsider. He voted for the improvement and the ordinance was finally adopted by a majority of the board. Councilmen Barnett, Budde and Mayer stood "pat," however, and did not alter their votes against the needed improvements.

A step towards the establishment of a bacteriological laboratory for the city was taken by the general council last night when an ordinance was ordered brought in at the next meeting calling for the proposed laboratory. The matter of framing the ordinance was placed in the hands of the city solicitor, the hospital, sewer and sanitary committee, city physician, the health officer and the board of health. The motion originated in the board of aldermen, through Alderman Stewart, and passed. Mr. Potter opposed it with a few remarks, but the motion carried unanimously in the council. It is proposed that this kind of a laboratory will decrease the death rate in Paducah materially, as much as 30 per cent.

President Hannan, of the aldermen, was not present last night as per his agreement not to attend or participate in any meeting of the council.

A motion from the council that all city employees be granted a vacation was tabled. The motion was drawn improperly and could not be taken up.

Complaint was registered by citizens on Jefferson street between Ninth and Twelfth streets of high weeds that had not been cut in some time. The complaint was referred to the city health officer.

A deed to a lot in Oak Grove cemetery was ordered granted to J. K. Greer.

The recommendation from the board of public works that the new engine for the city light plant be purchased from the Hoover-Owens-Wrencher company of Hamilton, O., for \$4,500 was concurred in. Mayor Smith was instructed to sign the contract with the company.

Alderman Stewart made the motion that the city engineer get up specifications and an estimate of the cost for the construction of the new bridge over Island creek.

The ordinance committee was instructed to bring in an ordinance exempting the A. D. Dickerson Tobacco company from city taxation for five years.

The Chicago, St. Louis & New Orleans railroad was granted the right to cross Monroe street at Tenth street with a spur track. The ordinance was given first and second passages.

Alderman Stewart made the motion that the street committee secure an estimate for the purchase of property necessary to extend Sowell avenue from Ashbrook avenue to Clements street. The committee was given power to close options.

Mayor Smith was instructed to release the property formerly used for the city hospital to J. W. Holmes, who has made the final payment on the property.

A request from citizens that the Paducah Water company be instructed to extend mains on Monroe street between Seventeenth and Eighteenth streets, was passed.

ITCHED ALL SUMMER.

Skin Troubles Cause Great Aggravation in Hot Weather—Unnecessary if Postum Is Used.

Frequently a skin trouble appearing in the spring and allowed to remain unchecked will afford cause for intense itching all summer long. When postum, the new skin remedy, is first applied all itching is stopped, inflammation is allayed, the burning skin is cooled and comforted.

For the prompt relief and cure of the many forms of eczema, acne, tetter, barber's itch, and all other skin troubles postum has proved the most efficient healing agent yet evolved. In the lesser affections, such as pimples, red noses, complexion blemishes, rash, scalp trouble, itching feet, etc., results are seen overnight, but a small quantity being required. (Nothing is so good for sunburn and mosquito bites.)

A special 50-cent package of postum is prepared for minor uses, and this, as well as the regular \$2 jar, is on sale by all druggists, particularly Gilbert's drug store and R. W. Walker & Co. But no one is asked to purchase postum without first obtaining a sample package, which will be sent by mail, free of charge, upon request by the Emergency Laboratories, 32 West 25th street, New York City.

board under the grand jury probes the alleged plumbers' conspiracy. Alderman Will Farley presided.

THE ALDERMEN.

Much of the time of the aldermen last night was taken up in a general discussion of the right to permit property owners living just outside of sewer district No. 2 to connect with the sewer. The aldermen had no objection to the property owners tapping the mains at their own expense when it would relieve a bad sanitary condition, but objected strenuously to the city paying the expense. The whole talk which was a long-winded affair, came up when W. F. Bradshaw Jr., asked permission to extend the sewer down an alley and connect two houses. The sewer has been extended north on Sixteenth street from Broadway, and it was his desire to extend the pipe west on the alley between Sixteenth and Seventeenth streets.

When the request was brought up, Alderman Stewart said that the ground is so flat and the dry wells had given so much trouble that he favored the city constructing the branch sewer up the alley and letting the property owners pay for the construction when they connect with the sewer. Alderman Potter objected to the plan and desired the property owners to pay for the connections. The connections with the sewer would not exempt the residents from the regular assessment when sewer district No. 2 was constructed. When put to a vote the motion to construct the sewer was lost.

Then in order to relieve the bad sanitary condition Mr. Bradshaw was given permission to connect his two houses at his own expense. However, Alderman Lackey and Mr. Bradshaw will visit the property owners in the vicinity, and efforts will be made to have them pay for the construction of the branch sewer so that the vicinity may have better drainage.

The proposition to drain the western part of the city adjacent to the Hinkleville road was referred to the sanitary committee. To construct a sewer would cost \$12,000, but a ditch that will answer the same purpose can be extended at a cost of about \$250.

A motion from the council that all city employees be granted a vacation was tabled. The motion was drawn improperly and could not be taken up.

Complaint was registered by citizens on Jefferson street between Ninth and Twelfth streets of high weeds that had not been cut in some time. The complaint was referred to the city health officer.

A deed to a lot in Oak Grove cemetery was ordered granted to J. K. Greer.

The recommendation from the board of public works that the new engine for the city light plant be purchased from the Hoover-Owens-Wrencher company of Hamilton, O., for \$4,500 was concurred in. Mayor Smith was instructed to sign the contract with the company.

Alderman Stewart made the motion that the city engineer get up specifications and an estimate of the cost for the construction of the new bridge over Island creek.

The ordinance committee was instructed to bring in an ordinance exempting the A. D. Dickerson Tobacco company from city taxation for five years.

The Chicago, St. Louis & New Orleans railroad was granted the right to cross Monroe street at Tenth street with a spur track. The ordinance was given first and second passages.

Alderman Stewart made the motion that the street committee secure an estimate for the purchase of property necessary to extend Sowell avenue from Ashbrook avenue to Clements street. The committee was given power to close options.

Mayor Smith was instructed to release the property formerly used for the city hospital to J. W. Holmes, who has made the final payment on the property.

A request from citizens that the Paducah Water company be instructed to extend mains on Monroe street between Seventeenth and Eighteenth streets, was passed.

Two public improvement ordi-

nances were given first and second passages. One ordinance provides for the grading and graveling of Flournoy street between Twelfth and Fourteenth streets. The second ordinance provides for the construction of concrete sidewalks and gutters and granite curbing on Jefferson street between Eleventh and Fourteenth streets. The improvements may be constructed on the ten year assessment plan.

The report of the finance committee was received and filed. A bill of Henry Halley was referred to finance committee.

The minutes of the last meeting and the adjourned meetings were read approved and adopted.

The election of a president was lively. Every alderman present was placed in nomination. Upon the first roll call Aldermen Farley and Stewart received two votes each, while Aldermen Potter and Lackey received one vote each. The two lowest candidates were dropped. On the second roll call Alderman Farley was elected president pro tem by a vote of four to two.

Those present were: Aldermen Farley, Lackey, Ochelschlaeger, Potter, Stewart and Van Meter. Aldermen Hannan and Hank were absent.

The Council.
 City Treasurer George Walters acted in the capacity of city clerk for Maurice McIntyre, who is taking his vacation.

The report of the sinking fund commission was read and received and filed.

W. F. Bradshaw, Jr., was granted a permit to connect two lots at Sixteenth and Jefferson streets to an extension sanitary sewer running through an alley.

First and second passages were given an ordinance permitting the Chicago, St. Louis & New Orleans Railroad company to construct a spur track across Tenth and Monroe streets and on the west side of Tenth street between Madison and Monroe streets.

The regular semi-monthly accounts were allowed with the exception of \$58.80 for the special officer, which was referred back to the finance committee.

Mayor James P. Smith was instructed to release a deed on the old city hospital property, as the final payment by J. W. Holmes, the purchaser, has been made.

Resolutions from the board of health were referred to the ordinance committee to bring in ordinances covering the requests. They were: (1) To compel business men to sweep the pavements in front of their places of business before 5 a. m. each morning; (2) that all slaughter houses and dairies be removed from within city limits; (3) that grade oil be used in sprinkling gutters and ponds in the city to prevent germs from multiplying. Health Officer Holland spoke in behalf of the ordinances.

An ordinance was ordered exempting the A. D. Dickerson Tobacco company from municipal taxation for a period of five years.

The street committee was instructed to ascertain the cost of extending Sowell avenue from Ashbrook avenue to Clements street in Mechanicsburg, and also to get options and report at the next meeting.

The Paducah Water company was directed to extend its water mains on Monroe street between Seventeenth street and Eighteenth street upon a petition from property owners for the improvement. A fire plug was ordered placed on the rental list.

To the hospital sewer and sanitary committee was referred the matter of draining the west end from the Hinkleville road to Perkins creek at a cost of about \$500 to the city. The board of health sent in a request and a report from City Engineer Washington. The county and property owners will be asked to contribute towards the expense of the drain.

The board ratified the action of the board of public works in awarding the contract for the new engine at the city light plant to the Hoover, Owens & Hentscher company of Hamilton, Ohio, for \$4,600.

In Mechanicsburg.
 The matter of widening Yelder avenue, Mechanicsburg, was referred to the finance committee. City Solicitor Campbell, who was recently ordered to institute condemnation proceedings for the property, said this action would prove more costly than to purchase the property outright, which would entail an expenditure of \$250. The intention is to widen the street fifteen feet and the best manner of acquiring the property will be left with the finance committee. Mr. Barnett opposed the motion, saying that other streets which needed improvement were not included in the ordinances for street improvements in Mechanicsburg.

J. K. Greer was granted a deed to a lot in Oak Grove cemetery on the installment plan.

City Engineer Washington was instructed to prepare an estimate of the cost of building the new Island creek bridge and make a report to the public improvement committee.

The Chicago, St. Louis & New Orleans railroad was granted the right to cross Monroe street at Tenth street with a spur track. The ordinance was given first and second passages.

Alderman Stewart made the motion that the street committee secure an estimate for the purchase of property necessary to extend Sowell avenue from Ashbrook avenue to Clements street. The committee was given power to close options.

Mayor Smith was instructed to release the property formerly used for the city hospital to J. W. Holmes, who has made the final payment on the property.

A request from citizens that the Paducah Water company be instructed to extend mains on Monroe street between Seventeenth and Eighteenth streets, was passed.

"Criminal indifference" you say. And you are right. But how much worse is it than what you are doing every day? You have read these advertisements of the

for a year or more, telling you that you ought to know all about the company that carries your fire insurance, but have you done anything about it? Many have, but the majority of policy-holders have done nothing about the selection of a company. They are still "adding."

In the history of fire insurance in America, a large majority of the fire insurance companies organized have failed or retired from business. To be insured in companies like Wells, that have been in business a hundred years and will be in business a hundred years from now, costs no more than to be insured in one that may go out of business next week.

VIRGINIA THE AIR OF FLYING

By HERBERT QUICK

CHAPTER XIII.

DEVILISH VERSUS BIRD.

WHEN the aircraft was run out on her ways by the long shed in which she had been built there was a flutter of expectancy among those so deeply concerned in her flight.

"The first mate always sails with the ship, uncle," Virginia suggested.

"Would you really go on the trial trip?" he asked.

"Try me," said she. "I want to."

"You'd be worth a dozen of Captain Harrows," replied Carson. "He hasn't the faintest idea of the principles of the Virginia, while you could fly her in a week."

"I could now," asserted Virginia. "The Virginia is a simple, manageable little thing, like her namesake."

"If she shows all her namesake's sweet traits," began Theodore.

"Then I'm to go?"

"Captain," cried Theodore, "here's a girl that wants to ship as first mate! Make sail, captain. We're going."

But Virginia seated herself beside Theodore, wearing a dress of soft white wool, a close fitting little cap on her head and carrying a jacket over her arm.

"Now, shall I keep the manometer readings? Oh, you haven't any! Well, then, the altimeter statoscope?" she suggested.

"It's self registering," said Theodore. "Really there's nothing to do except in emergencies, and—"

"And there'll be no emergencies!" she cried. "Throw in the clutch, admiral of the circumambient laze! You do the work, and I'll play lady! We're off!"

"Are you willing," said he, turning to her, "to forgive me for this and everything I may ever have done, whatever happens?"

"Whatever happens or doesn't happen, I forgive you!" she cried. "Throw in the clutch before the gyroscopes stop and the Virginia gets brain-fag or shall I?"

"Just for luck," said Theodore, "you throw it in."

She threw over the lever, and the wing sections started like 40,000 boys' "buzzes." The big bird rose perpendicularly from the ways and fanned the ground no more. Theodore turned on a little more speed, put the rudders apart to bring her head to the light seaward wind, and as she mounted higher and higher he tried her control.

He pushed over the lever that determined the thrust of the driving blades, and she shot in over the dunes like a wild thing until he headed her back for the Gulf. Well inside the bar, so that an overturn might not mean a drowning, he circled about in a wide curve, which he gradually narrowed by a more extreme use of the helm until she was spinning round and round in an orbit, in which the tips of the inner wings were almost stationary and "treading" air like a pausing swimmer.

"That twist out the balancing device!" shouted Theodore. "How's that?"

"Aye, aye, sir!" said Virginia. "That do sure test out the balancing device. And if you let her chase her tail like this much longer I'm going to be in disposed. Please whirl her the other way awhile, uncle."

Virginia walked forward. They were flying higher now, and she could see the pine woods far inland, with their square patches of plowed fields, their white houses behind the great green globes of the china trees. Far over the northwest soared a great aerona, silver white, as if covered with tin foil.

"I wonder if that isn't the Roc?" queried Virginia.

"If it is," said he, "and she comes about this place we'll show her what real aviation is."

Then they swept over and down the coast. They turned back and whirled out over the sea.

"Oh, look, look!" suddenly said Virginia. "There's some one in the water!"

Below floated the half collapsed and sinking go-devil of a submarine. Beside it lay a great blotch of darkness so symmetrical that Theodore was impressed with the sudden idea that it was a submarine rather than a patch of dark sand. A man on the derrick was struggling, shouting and waving a white cloth as if in distress. Theodore's eyes flashed. He reversed the thrust of the wing propellers, and in an instant they were fighting the air with all the power of the mighty engines. The passengers felt their bodies sway forward with the momentum as the Virginia slowed up, halted and moved astern, and as accurately as if he had had years of practice Carson brought her to over the struggling man and lowered her slowly.

slowly, toward the awells which rose to meet her until the line thrown over by Carson dabbled in the water by the castaway's side.

"Can you climb up?" cried Theodore.

"I don't dare come much lower."

"For God's sake," called the man, "bring her down a foot or so! I'm too weak to climb."

"Cheer up!" called Theodore. "It's risky, but I'll try."

If he was to be saved there was no time to be lost. So thought Carson as he depressed the Virginia more and more. Wigner set his teeth in a fierce determination to put both man and

ship out of the field at once. He was the sole custodian of the secret of her construction save for Carson. If he could drown her and master the secret of the glass globe he could rebuild her, make his terms with Shayne, be the greatest in his line. And he seized the handle with fierce energy, threaded a steel chain through an opening in the structure and dropped back into the water, holding the chain in his hand. It ran around the ammunition beam with a sharp, rasping, startling rattle.

"It's fallen in!" cried Virginia. Theodore looked over the side. A small double chain ran down from the airship, its ends moving about in a most mystifying manner in the sea. And as he looked in astonishment the

dark blotch of sand rose to the surface and defined itself as the rounded top of the Stickleback, on the black hull of which sat Wigner blowing his nose with his mouth, his head shivering with water. The warlike opened, Wigner snapped the chain into a ring, slipped into the submarine and reappeared with something small and fat in his hand.

"If I fix you, you d—d whelp!" he yelled. "Take that!"

He aimed at Carson, fired, and the bullet saug away into the sky. Theodore seized Virginia in his arms and drew her down into the bottom of the car, where they lay panting in each other's arms, pale stricken.

"I must put the ship out of range!" cried Carson, leaping to the lever.

She rose like a feather for just a moment, and then she swung about like a kite with its string fouled, anchored by some devilish contrivance. Carson stepped to the side again and looked over. The Virginia hung some thirty yards above the water, and straining backward and downward ran the steel chain looped through her works and fastened by both ends to the submarine. The harsh, raucous laugh of Wigner rose with horrid significance from the Stickleback's manhole, which was again above water and open.

OFFICERS FROM ENGLAND. Have Arrived in Quebec to Aid in Taking Crippen.

Quebec, Aug. 16. — Sergeant Mitchell, of Scotland Yard, and wardens from the Holloway jail, arrived to help Inspector Dew take Dr. Hawley Crippen and Ethel Clare Leneve back to London to be tried, charged with the murder of Belle Elmore.

Apparently both prisoners are eager to return. When Crippen learned that Mitchell and his assistants had arrived, he said to the jailer:

"I am glad they've come. They cannot take me back any more soon to suit me."

SCHOOLS TO OPEN FOUR WEEKS HENCE

PREPARATIONS BEING MADE FOR EVENT.

Teachers Are Returning and Parents Are Notified What To Do.

PROF. CARNAGEY'S ADVICE

Four weeks from today the school bells of Paducah will sound, calling back to the school room the army of children, who have been at play all summer. The vacation period is rapidly slipping away, and the city will soon be deserted by the small army of college boys and girls.

The public schools are ready for the opening. Most of the teachers, who attended the summer sessions of the normal schools, have returned and with a few weeks' rest will be ready to answer the call of the school room. There are a few vacancies only in the corps of teachers, and when September 12, the date for the opening of the schools, comes all is expected to be in readiness. The examination for the teachers will be held August 26 and 27. The physical examination for the teachers will be held in September, just before the opening of the schools. All of the teachers will report September 10 at 10 o'clock in the morning when the first meeting will be held and Superintendent J. A. Carnagey will outline the work for the year.

In order to relieve much of the confusion of the opening of the school, parents of children just starting should see Superintendent Carnagey the week before school opens. This will save several hours' waiting on the opening day, and is more satisfactory to everybody. Superintendent Carnagey advises all parents who intend to enroll their children that the pupils must be vaccinated or have a good scar. The rules of the board require this and in order to prevent an epidemic it is enforced rigidly. If having the arms of children vaccinated now, the soreness will be gone by the opening of schools.

The janitors will report for work September 1, and all the buildings will be given a thorough cleaning in preparation for the opening. The janitors will be instructed by Dr. S. Z. Holland, city health officer, as to the proper methods for placing the buildings in a sanitary condition.

MONTREAL AND QUEBEC.

A veritable edition de luxe among railroad pamphlets has been issued by the Grand Trunk Railway System to proclaim amongst tourists the glories of the cities of Montreal and Quebec. The brochure is beautifully printed and generally arranged in the artistic style of earlier days, when the ornamentation of a volume was regarded as an important incident to its presentation of reading matter. It gives an interesting description of the two most interesting cities in Canada, with many illustrations from photographs. Sent free to any address. Apply to H. G. Elliott, 317 Merchants Loan and Trust Building, Chicago.

DELINQUENT TAX

SALES WILL BE MADE BY STATE REVENUE AGENT.

Court of Appeals Has Decided in His Favor—Many New Buyers for Land.

Commencing Monday, September 12, State Revenue Agent Will Husbands will hold another big sale of real estate advertised for delinquent state and county taxes, the list of delinquents having been published in yesterday's Sun for the first time. The sale will be continued from day to day for ten days and the interest in the property advertised, by long-headed business men, bids fair to make it the biggest sale of the sort ever held in Paducah.

When the state revenue agent's sales were first held here, the court of appeals had not expressed itself so definitely and conclusively and many lawyers were skeptical as to the wisdom of investing in these tax titles. The court now has sustained these titles, however, in at least two clean-cut decisions and as a consequence those who know anticipate reaping a rich harvest by purchasing these tax titles.

Lawyers all over the state are advising their clients to pay up their delinquent taxes without delay, rather than take the risk of having their property bought in, with the necessity of then having either a law suit or settling with the buyer.

LIVESTOCK.

Louisville, Aug. 16.—The receipts of cattle were 1,553 head, an against 1,299 last Monday, 2,865 a year ago and 1,706 two years ago. There was a fairly good attendance of local traders and butchers on the yards this morning, and some few out-of-town buyers, but following a bad finish last week, the reports from other markets were not encouraging, and the local trade was dull and draggy, with unevenly lower prices in vogue. Choice, handy butchers were the best sellers at 10¢ to 15¢ lower prices than the close of the week, or 15¢ to 25¢ under the best time last Monday. Medium and inferior kinds dropped 25¢ to 40¢ away from the high time a week ago. Grassy, half-fat 990 to 1,100-pound steers were the hardest to sell of any class. No one interested in that class of cattle except at a big discount. Prime feeders about steady. Good demand for the best stock cattle. Common and plain grades slow sale. Hulls lower. Canners and cutters dull and lower. Milch cows slow sale. No prime export cattle here. Feeding steady to easy. A few medium and light shipping steers were on sale. The best (finest kinds) sold about steady, while others were dull to lower. The pens were fairly well cleared, but trade closed dull.

Receipts 205; market about steady; bulk of the best 7¢ to 7½¢; medium 6¢ to 7¢; common 2½¢ to 6¢. Heavy calves very dull.

The J. L. Lowry arrived in port last night from Evansville, being 36 hours behind time and left at 9 o'clock on a return trip.

The J. B. Richardson arrived this morning from Nashville, and will enter the Evansville-Paducah trade, taking the place of the John S. Hopkins, which is laid up on account of low water.

The Mary Anderson arrived last night from Caseyville with a large tow of empties.

The J. B. Richardson, which has

been chartered in the John S. Hopkins' place, will make the trip to Clarksville before going into the Evansville trade.

Al Pritchard has resigned as pilot on the Dick Fowler and left last night to accept a position of posting up on the Mississippi, near Memphis.

The Clyde arrived last night from Waterloo, Ala., and is lying at the N. C. & St. L. wharf unloading. She will leave Wednesday on a return trip.

The Condor left yesterday for Rosa Clair but failed to pass the Sister's Island, where she still remains.

The big tow boat Cleaner, of the West Kentucky Coal company arrived this morning with a big tow of empties.

The City of Louisville was taken out of the trade last week and sent to the ways for repairs.

The Margaret arrived yesterday afternoon from the Tennessee with ties for the Ayer-Lord Tie company and will return this evening.

Captain Dorsey, chief of steamboat inspectors, has gone to Ball's Bluff, Ark., to inspect the towboat Russell Lord, of Paducah. Arkansas is out of his district, but the Nashville board of inspectors is disgruntled, consequently he has to cover that district as well.

Street Inspector Bell has placed the city chain gang at work removing the large accumulation of mud from the Paducah levee. The mud is being scraped from the cobble stones as fast as the river recedes and the work takes considerable time. Some rivermen suggest that the levee be flushed instead, as this would scatter the sediment and clean off the stones with less work and with better results.

Rivermen will regret to hear of the death of John Dreffer, who died at his home in Covington, Ky., last Friday after a long siege of sickness. He was one of the old-time stewards on the river in ante-bellum days of steamboating out of Cincinnati.

The City of St. Joseph, which operates between Memphis and O. K. landing, is being overhauled at an expense of \$5,000 on the marine ways at Helena, Ark. She is being rapidly completed.

ROUGH AND TUMBLE

EPISODE IN SMOKE OF TRAIN FROM CAIRO.

Patrolmen Kirk and Dunaway Take Two of Towboat Crew to the City Hall.

Out of a rough and tumble episode that took place between 23 members of the crew of the towboat Joe H. Williams last night in the smoking compartment of the Cairo accommodation train, only two were taken in tow by the police department. The small riot is said to have been caused by a stranger "butting in" with the steamboaters when the train reached Paducah, and from that time until the train halted at Union station the fight raged.

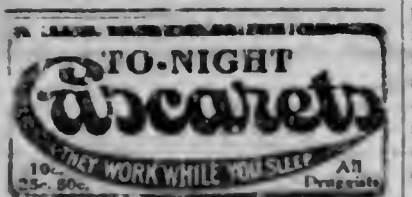

Patrolmen Kirk and Dunaway answered the call to meet the train at Eleventh street and Broadway and boarded the smoker to relieve the situation. The marines settled down with the exception of John Diley, who became unruly and was tapped over the head several times with maces wielded by the police. He was transferred from Union station to police headquarters and lodged in jail for the night.

Ed McGarrigal, a tail-ender, was found asleep in a box car by Patrolman Gilliam near Union station at 5 o'clock this morning and confessed to being one of the gang. Both he and Diley were fined \$15 in police court and paid out.

When the towboat Williams tied up at Cairo yesterday on account of low water the crew, hailing from Ohio river points, were given transportation home. They took passage on the Cairo train and remained peacefully until Paducah was reached. Grips and several parcels were thrown from the windows of the smoker and one unknown man is alleged to have been cut. He could not be found, however. The train was in charge of Conductor Henry Harris, who said the men were orderly until a stranger came in. The smoker was closed tight to prevent the fight spreading.

Let Us Send You An Electric Flat Iron on Thirty Days' Free Trial

THE HOT POINT

Is guaranteed to give you entire satisfaction for two years. The HOTPOINT is the IRON for HOT WEATHER days, always ready, always clean, perfectly safe, saves the housewife toil, energy and worry. It is the iron with the cool handle—hot point—and attached stand.

The HOTPOINT was awarded the GRAND PRIZE at Seattle Exposition. It is GUARANTEED TWO YEARS, hardy, sturdy and sufficient. Many houses where electric lights are used, if the ironing is done with anything except an electric iron, some woman is wasting hours of time and a tremendous lot of vitality by doing the work the old fashioned way.

The HOTPOINT ELECTRIC IRON cuts out the drudgery of working—it's simple and practical—the initial investment is small, operating expense is trivial and the saving of fuel soon pays for the iron.

The HOTPOINT IRON can be connected instantly to any electric light socket in the house. Then you begin to iron and iron continuously. No waiting, no bother, no running back and forth, no lighting the iron on light work, the heat stored in the iron being sufficient, and the current can be cut off.

Let us send a HOTPOINT on free trial, and if at the end of 30 days it is not entirely satisfactory, you can return it to us. If you decide to keep it, its price is only \$4.00.
